**A NARRATIVE REPORT ON SCHOOL-BASED TRAINING
ON ASSESSMENT FOR LEARNING**

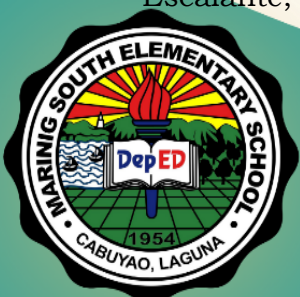

I. INTRODUCTION

In line with the implementation of Enhanced Basic Education Curriculum Act of 2013 (Republic Act No. 10533) and DepEd Order No. 8, s.2015: Policy Guidelines on Classroom Assessment for K to 12 Basic Education Program, Marinig South Elementary School conducted Learning Action Cell entitled “School-Based Training on Assessment for learning” last May 29, 2023 from 1:00 pm to 4:00 pm at the Hemedez Building. Classroom Assessment is an integral part of curriculum implementation. It allows the teachers to track and measure learner’s progress and to adjust instruction accordingly. Classroom Assessment informs the learners, as well as their parents and guardians, of their progress.

The LAC aimed to provide guidance and key points to the teachers about assessment for learning to improve and enhance the knowledge and skills of the teachers in the delivery and facilitation of teaching and learning process.

II. TRAINING PROPER

The session started with a prayer led by Ms. Julieta M. Cayas and nationalistic song through an audio-visual presentation. Then, Mr. Emmanuel B. Cerda, the school principal, gave his opening remarks. It was followed by the introduction of the speaker given by Edelene T. Escalante, one of the school’s Master Teachers.

Ms. Maribeth Guerrero, the speaker, is the Education Program Supervisor of Social Studies in SDO Cabuyao. She started her talk by asking questions about assessment. The speaker discussed the legal basis of assessment, as well as emphasize that assessment is to track of learner's progress to achieve best effect. Then, the speaker discussed the importance of Table of Specification (TOS) and how it can help the teachers plot the amount of class time spent for each objective and test questions required in the test. Then, she allowed the participants to ask questions for clarification. Since output is required from this session, the participants were very attentive so that they can make a good output to be presented. After that, the participants were given time to apply what they have learned from the speaker by writing a TOS to be presented. Lastly, outputs were presented to the whole faculty.

The session concluded with an awarding of certificates. Recognition was first given to the speaker, Ms. Maribeth Guerrero because of her selfless sharing of expertise on how to improve teaching in assessment for learning. The Technical Working Group and all the participants also received their certificates.
