MARINIG SOUTH ELEMENTARY SCHOOL

School Clinic

School Health Services aim to promote the well-being of pupils through disease prevention, early case detection, referral for intervention and remediation of specific health problems. These are necessary to provide first aid for illness and injuries, direct services for pupils with special needs, health counseling and education for pupils, parents, and staff. In addition, the primary purpose of the School Health Services Program is to promote the physical and emotional health of students and staff thereby maximizing the educational process and work functionality.

Marinig South Elementary School Clinic is located at the back of the stage. The personnel in charge of the daily operations of our school clinic are Mr. Edmon O. Galang, the school nurse, and Mrs. Jhenelyn B. Villegas, clinic teacher. Moreover, our school nurse and partner specialists in the field keep a health record of all the students as well as provide significant information to improve student wellness.
