MARINIG SOUTH ELEMENTARY SCHOOL

Water, Sanitation, and Hygiene in Schools (WinS)

Water, Sanitation, and Hygiene in Schools (WinS) Program plays a vital role in keeping the learners healthy and safe at home and school. It is also under the platform of Oplan Kalusugan (Ok sa DepEd). The purpose of WinS is to provide safe drinking water, access to clean water, gender-friendly facilities and promote hygienic behaviors and lifelong good health.

Marinig South Elementary School (MSES) has a large population. It has many hand washing facilities with a total of 100 faucets. These facilities are distributed within the school vicinity. They are all functional, but the water is non-potable. Thus, MSES provides each classroom with a water dispenser and mineral water for the pupils and staff. They can drink for free anytime. In addition, there are 39 communal toilets, and all are functional, clean, and have adequate ventilation. Aside from that, the school has trash bins with covers in all classroom areas. The focal person of the said program is Mrs. Meriam A. Labonete. She ensures that the roles and responsibilities required by the Division Office are properly and effectively fulfilled.
