The School-Based Training on Localized Video Materials as an ICT Integration in Teaching was held at Marinig South Elementary School on January 27, 2023. Mr. Patrick L. Pernia, an ICT enthusiast from Niugan Elementary School, provided a comprehensive and clear explanation on the use of Canva in teaching. He also shared valuable tips on editing photos and creating videos using this application.

Technical Assistance (TA) was consistently provided to ensure better results and uphold the principles of quality teaching and learning. Master Teachers and School Heads strongly emphasize the goal of encouraging every teacher to continually aspire to become proficient and highly proficient in their chosen field.

Under the technical guidance of Project Leader Ma'am Doris D. Herbosa, a skilled Master Teacher I, the team is crafting contextual materials. These materials are thoughtfully designed to engage students, promote understanding, and align with the curriculum, enhancing the overall learning experience.
