School Canteen

Every school has a canteen, and it makes it easy for students to get food from these canteens. On a busy day when mothers don't get time to pack snack boxes, these canteens are really handy and a lifesaver. Marinig South Elementary School has a canteen that is exactly enough and can accommodate many students at a time. We have also the so-called tray system, where the students who would like to have food from the canteen could avail and buy snacks and hot meals which were served by the canteen custodian and staff that were delivered in every classroom. This system will greatly help not only our canteen staff but also the students.

Our school canteen caters for 2034 students, 44 teachers, and 7 support staff. Total income from the canteen was shared into six areas. Mainly, 35% is used for the school feeding program, 5% shares to school clinic, 10% for H.E, 10% for the revolving capital, 15% will go toward a faculty/student fund, and the remaining 25% will go toward the school's operating fund.

Hot meals, nutritious foods and native delicacies were served. The canteen operations are managed by the canteen manager, Mrs. Alicia M. Guevara, also a teacher, together with her two helpers.
