LEARNING AND DEVELOPMENT PLAN

I. Introduction

Learning and Development (L&D) is a set of systematic and planned interventions or programs designed by the Department of Education (DepEd) to equip its workforce with the necessary competencies to meet the current and future job requirements. L & D is the road map for all teaching, teaching – related and non- teaching personnel in the school that helps support their career and professional development. The plan is tailored fit to meet the needs of every individual and learning group, their current and future role.

II. Data

The table below shows the proposed activities for the professional development of the teachers for the year 2023. It also includes the learning objectives, outputs to be produced, target learners, schedule, and the source of fund.
